DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 8, 10-13, 15, 17, 22, 24-27, 29, and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Fernandez et al (U.S. Patent 5,740,532).

Regarding to claims 1 and 15, Fernandez discloses a system 108 (Fig. 1) for generating real-time announcements in a digital packet-based telecommunications network wherein data is transferred from a source to a destination in packets for receipt by the destination, and wherein the packets include a header containing address and sequencing information (Fig. 3), the system comprising an announcement server 105 for sensing a predetermined trigger event 200 (Fig. 2 col. 3 lines 45-47) and for inserting a priority indicator (emergency code) into the header of a packetized announcement (priority message) indicating high priority for the packetized announcement (Fig. 2 col. 4 lines 1-11); a packet-based network 100 in communication with the announcement server for transmitting the packetized announcement with the data for receipt by the destination upon the predetermined trigger event being sensed (Fig. 2 col. 4 lines 11-20); and a processing device 104 in communication with the packet-based network for receiving and processing the packetized announcement immediately for receipt by the destination in real-time (Fig. 1 col. 2 lines 28-37).

Regarding to claims 3 and 17, Fernandez discloses merging the packetized announcement with the data (Fig. 5 col. 5 lines 18-43).

Regarding to claims 8, 10, 22, and 24, Fernandez discloses the announcement is an audible/synthesized announcement 124 (col. 3 lines 36-42).

Regarding to claims 11-13 and 25-27, Fernandez discloses the announcement 122 is a visual, graphical, or textual announcement (col. 3 lines 36-42).

Regarding claims 29 and 30, Fernandez discloses the processing device is a component of a wireless network or handset (Fig. 1 col. 2 lines 3-10).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9, 14, 23, and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fernandez.

Regarding to claims 9 and 23, Fernandez discloses all the limitation with respect to claims 8 and 22, except for the announcement is a pre-recorded voice announcement. However, to include the announcement is a pre-recorded voice announcement would have been obvious to one of ordinary skilled for interactive voice response exchanges.

Regarding to claims 14 and 28, Fernandez discloses all the limitation with respect to claims 1 and 15, except for the announcement is a vibratory announcement.

Art Unit: 2663

However, to include the announcement as a vibratory one would have been obvious to one of skilled in the art to alert user in noisy environment.

Allowable Subject Matter

5. Claims 2, 4, 6, 7, 16, 18, 20, and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
